【参考范文】

Nowadays more and more people keep learning new skills to adapt to a fast-changing world. Against the background of an era characterized by knowledge explosion, it is advisable for us to persist in learning new skills .

First and foremost, keep learning can not just broaden our horizons, but also facilitate self-promotion. Or, put it another way, the lack of learning new skills is bound to pose a threat to individuals' prospect, leading to the deprivation of opportunities to succeed. Take my own experience as an example: I spent my spare time in learning calligraphy in college, which allows me to know about the greatness of Chinese calligraphy and improve my handwriting that can lay a solid foundation for my future career.

From what has been discussed above, we may draw the conclusion with confidence that learning new skills should be encouraged and advocated. I reckon that we are supposed to realize the importance of it and put it into practice. Only in this way can we promote our qualifications and create a promising future in the long run.
